MyMathLabPlus Login Instructions

1.) The email address you regularly use should be recorded in the MyCSN registration system. If you don’t have an email address indicated in MyCSN or if you have an outdated one, please update your information. You will NOT be able to access MyMathLabPlus without a valid email address entered into the MyCSN registration system!!! The email address you enter is the one that will receive all my course announcements, so it is important that you use an email address you check regularly.

2.) Go to http://csn.mylabsplus.com (this link is also on my website) and log into MLP. You should copy and paste this link to a browser rather than clicking on the link in this document. Your username is your ten digit NSHE Student ID. By default, your password is the last four digits of your Social Security Number. If it doesn’t work (or if you don’t have a social security number), then your default password is 9999. You will be asked to change your password once you logon to the system.

3.) Once in the system you will automatically see a splash screen listing your courses using MLP. Click on a course to enter it. For the first two weeks of the semester you will be able to access the course without an access code. After the first two weeks of the semester you will not be able to access the course unless you enter an access code (you will only need to enter the access code once).

To obtain an access code, go to a CSN bookstore and purchase the access code that is in the packaging as pictured below. The packaging MUST have the word MYMATHLABPLUS. This access code is ONLY available at a CSN bookstore or at www.efollett.com

NOTE: Even if you purchase an access code during the first week of the semester you will not be able to enter the access code until after the second week. Be careful not to lose your code!
