**PLEASE NOTE:** Medical evaluation, treatment, and follow-up care after an accident or exposure incident is the **FINANCIAL RESPONSIBILITY OF THE STUDENT**. Medical insurance is mandatory for every student enrolled in a healthcare program at CSN and must be purchased through a private carrier.

#### **Following an exposure to bloodborne pathogens:**

1. STOP the activity.
2. WASH / FLUSH the affected area.
3. GET FIRST AID, as needed.
4. IMMEDIATELY REPORT the incident/accident to your INSTRUCTOR or SITE SUPERVISOR. REPORT to the Infection Control Manager.
5. SEEK A MEDICAL EVALUATION as soon as possible.

**Student injuries are NOT WORK RELATED. Do not complete paperwork related to workers' compensation claims. Students are covered by their own insurance.**

6. COMPLETE necessary REPORTS
  - CSN Written Statement available from program assistants or campus safety office. *Return to Infection Control Manager*
  - Report to Infection Control Manager available from program assistants or Infection Control Manager. *Return to Infection Control Manager.*
7. The CSN Infection Control Manager is available for guidance in obtaining medical evaluation, treatment and follow-up care.
