Welcome to the Physical Therapist Assistant Program at the College of Southern Nevada!

The faculty and staff of this program are dedicated to helping you to achieve success in the PTA program and to preparing you to be a skillful, competent, ethical, safe and professional physical therapist assistant. This will be achieved through a variety of instructional techniques including but not limited to: lecture, laboratory skills practice, student projects, community involvement and clinical affiliations.

You are embarking on a professional career that will touch and enhance the lives of many people. Your dedication and commitment to the healthcare profession is expected and applauded. We are here to assist you in any way we can.

Joann Gutschick, PT, MS
PTA Program Director

Accreditation Status
The Physical Therapist Assistant Program at the College of Southern Nevada is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: accreditation@apta.org; website: http://www.capteonline.org.

Student Outcomes
Graduation rate: 79% (2 year cumulative 2015-2016)
Licensure examination pass rate: 100% (2 year cumulative 2015-2016)
Employment rate: 100% (2 year cumulative 2015-2016) of graduates who sought employment were employed within 1 year of passing the licensure exam.

Revised: May 2017

Purpose of the PTA Handbook

This handbook is designed to provide you with information about our expectations of you, the PTA student, throughout your tenure in the PTA program from entry to graduation. It is intended as a resource for information and guidance for your success in the physical therapist assistant program.

This handbook will be a guide for you as you progress through the program and should be used in conjunction with the “Student Policy Handbook for Health Sciences Programs” and the CSN College Catalog and all applicable NSHE Board of Regents policies. Information you will need to know about college-wide policies and procedures will be contained in the “Student Policy Handbook for Health Sciences Programs” and the CSN College Catalog and all applicable NSHE Board of Regents policies. Information specific to the PTA Program will be contained in this handbook.

**Please keep these handbooks so that you may refer to them as necessary.**

The Physical Therapist Assistant

Physical Therapy, according to the American Physical Therapy Association (APTA), is a dynamic profession with an established theoretical and scientific base and widespread clinical applications in the restoration, maintenance, and promotion of optimal physical function. Physical therapists are health care professionals who help individuals maintain, restore, and improve movement, activity, and functioning thereby enabling optimal performance and enhancing health well-being, and quality of life. (see more at apta.org)

The physical therapist assistant (PTA) provides physical therapy services under the direction and supervision of a licensed physical therapist. PTAs help people of all ages in a variety of settings. Care provided by a PTA may include teaching patients/clients exercise for mobility, strength and coordination, training for activities such as walking with assistive devices, and the use of physical agents. (see more at apta.org)

The PTA is a graduate of a physical therapist assistant associate degree program accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE).
American Physical Therapy Association

The American Physical Therapy Association (APTA) is the national association for physical therapists and physical therapist assistants. The APTA is our best source for current information on professional issues and concerns. The APTA is the voice of the profession, actively working to represent the physical therapy profession on Capitol Hill and in state legislatures. The association is dedicated to advancing the profession, setting standards, encouraging research, and promoting diversity within the field. Your membership in the APTA is your key to being informed about the topics, trends, and issues that affect the practice of physical therapy and your career.

It is essential that you join the APTA in order to remain abreast of opportunities and advancements in physical therapy. Students receive a discount when joining the organization on a state and national level, as well as any special sections you may choose. As a member of the APTA, you will receive several publications and be afforded many other benefits. The APTA can be a limitless resource during your professional education and your career. Take advantage of all that your professional association has to offer.

As a member of the APTA you will automatically be a member of the Nevada Physical Therapy Association (NPTA). This is your state chapter. Get involved.

Mission of the College of Southern Nevada
The College of Southern Nevada creates opportunities and changes lives through access to quality teaching, services, and experiences that enrich our diverse community.

Mission of the School of Health Sciences
The mission of the School of Health Sciences is to provide quality, student-centered certificate and degree programs. Health programs are offered to meet the needs of state and local communities.

Mission of the Department of Dental Sciences, Diagnostic Evaluation and Rehabilitative Services
The mission of the Department of Dental Sciences, Diagnostic Evaluation and Rehabilitative Services is to provide standards-based certificate and associate degree programs designed to address specific needs of local, state and national communities. The Department is committed to providing an integrated curriculum consisting of the appropriate didactic, laboratory and clinical experiences necessary to prepare a competent healthcare workforce in each program area. The Department promotes the core values of quality, honesty, integrity and professionalism for all programs.

Mission of the Physical Therapist Assistant Program
The mission of the physical therapist assistant program is consistent with and supports the mission of the college, the School of Health Sciences and the Department of Dental Sciences, Diagnostic Evaluation and Rehabilitative Services.

The mission of the PTA program is to produce graduate physical therapist assistants who are capable of providing safe, competent and ethical physical therapy interventions under the supervision of a licensed physical therapist.
PTA Program Goals and Student Outcomes

The program learning environments are varied and are designed to meet the educational needs of the students. Lecture, skills laboratories, clinical affiliations, and independent and group projects are integrated into the curriculum which strives to help students develop their academic, technical, and interpersonal skills. Providing opportunities to develop the qualities of compassion and motivation necessary to be an effective health care provider are stressed.

The program faculty provide positive, contemporary role models and an environment which emphasizes the need for individual commitment and continued professional development in order to further enhance one’s knowledge and clinical skill. Professional attitudes and a commitment to serve the community and profession are stressed in class and through participation in local, state and national associations; and in participation in other community health related events.

Graduates of the PTA program will be able to:

1. Practice abilities and critical thinking skills necessary to carry out the physical therapy plan of care.

2. Provide competent, safe and ethical patient care under the direction and supervision of a licensed physical therapist.

3. Cultivate effective, respectful and culturally sensitive communication and interpersonal skills.

4. Use critical thinking skills to assess patient response to treatment interventions and respond appropriately.

5. Formulate educational plans for the patient, family and other providers, and the community related to physical therapy interventions.

The success of these outcomes is measured yearly by the following statistics:

- PTA graduation rate
- PTA licensure exam pass rate
- PTA employment rate
- Employer survey
- Graduate survey
- Feedback from supervising therapists of student affiliations

**Essential Functions**

Physical therapy is an intellectually, physically and psychologically demanding profession. The following information is provided to assist the student in better understanding the demands of the physical therapist assistant program and profession, and the abilities needed to successfully and safely complete the classroom, laboratory and clinical affiliation requirements of the curriculum.

**CSN recognizes its responsibility to provide equal access to its educational programs and services to all qualified persons with documented disabilities who can meet all program requirements with or without reasonable accommodations. Please refer to the college catalog and the Disability Resource Center located on each campus for potential accommodations. It is each individual student’s responsibility to disclose, document and discuss with the Disability Resource Center any request for accommodations.**

**Communication**

Communication includes: speech, language, reading, writing and computer literacy. The student must be able to read, write, see, speak, hear and interpret written and verbal communication in English. The student must also be able to appropriately perceive and interpret non-verbal communication as well as display appropriate non-verbal communication. The student must be able to communicate effectively, appropriately, professionally and sensitively with faculty, patients, families, care givers, other health care providers and the public. Students must be able to complete documentation and forms according to directions in a complete and timely fashion.
Motor
The student must have the physical strength and coordination to perform complex motor skills necessary to safely provide therapeutic intervention and emergency treatment to patients. The student must possess physical strength, balance and equilibrium in order to properly and safely transfer, ambulate, and reposition patients with a variety of sizes and impairments, and to move and utilize a variety of equipment. Students must also have sufficient gross and fine motor function and sensation to assess patients through the use of palpation, auscultation, manual muscle testing and other testing/assessment techniques.

Observation
The student must be able to observe and interpret signs and symptoms visually, auditorially and tactilely for the purpose of safe and appropriate assessment and treatment. The student must be able to observe demonstrations, equipment and patients at a distance and up close for the purpose of safe and appropriate assessment and treatment. Appropriate observational skills will enable the student to discern normal from abnormal (including emergency situations) in order to determine a safe and appropriate course of action.

Intellectual/Analytical
The student must be able to measure, calculate, reason, analyze, assess and synthesize complex information in a timely manner. Problem solving, common sense and critical thinking are skills demanded of a physical therapist assistant and need to be performed in an efficient and timely manner. The student should also be able to comprehend three-dimensional relationships and understand the spatial relationships of structures. The student must have the ability to use computers for searching, recording, storing and retrieving information.

Behavioral/Social
The student must be able to function effectively under stress and in changing educational and work environments with appropriate professional and ethical behaviors. The exercise of sound, professional judgment and the ability to be flexible are also necessary. Common sense, compassion, integrity, honesty, sincere concern and respect for others, interpersonal skills and self motivation are all qualities necessary for success in the physical therapy profession.
Safety
West Charleston campus security: 702-651-5613 or x5613 from a campus phone or just pick up any Emergency Phone.

General Information
All students must know and practice CSN safety guidelines at all times while using the classrooms and labs or on affiliations. Safety guidelines will be discussed as each new physical therapy technique is taught and demonstrated. Students should also refer to their Student Policy Handbook for Health Sciences Programs for specific information on infection control and exposure reporting protocols.

All labs are locked unless occupied by faculty and/or students during class, lab or open lab sessions. Any break in security should be reported to faculty and/or security immediately.

**Students will be instructed in and should be knowledgeable of the care, handling, and proper use of equipment prior to using it.

- Students should report any allergies, injuries, illness, physical disability, pregnancies, etc. to their instructor as soon as possible. The instructor will determine whether a student is capable of safely performing the necessary skill. A doctor’s note may be required for special accommodations and/or release from these accommodations.

- Unauthorized personnel are not allowed in the labs at any time.

Emergency Information
- There are emergency phones in: the anatomy lab, classroom, and the PTA labs. Just pick up the phone and security will automatically be connected.

- Access to the doorways in the classrooms and labs will be evident and unobstructed at all times.

- All doors and cabinets will remain closed when not in use.

Infection Control
- All students shall practice proper hand washing technique/hand hygiene while utilizing labs.

- Gloves are to be worn by students during during skills practice as appropriate.

- Non-latex gloves are available for those with latex allergy.

- Refer to the guidelines outlined in the Student Policy Handbook for Health Sciences for additional information and procedures.
Lab Skills
- Students are instructed to practice only those skills for which they have had prior instruction.
- Students are expected to come to lab appropriately prepared/dressed for each skill/technique to be practiced.
- Students should at all times practice safe techniques. Standard precautions should be followed at all times.
- Students will be instructed in and are expected to use proper/safe body mechanics at all times.
- All sharps materials are to be disposed in the appropriate biohazard sharps containers. Sharps are **NEVER** to be discarded in the trash or left out openly in the lab after use is complete.
- Students are responsible for reporting to faculty any equipment problems/maintenance issues such as frayed electrical cords, cracked plugs, broken parts, missing parts, etc.

Professional Behavior
Students are expected to demonstrate the following professional behaviors during all classes, labs and clinical affiliations in addition to professional conduct as stated in the School of Health Sciences Handbook.
- No wearing hats
- No hands in pockets or on hips when interacting with patient
- No crossed arms when interacting with patient
- No eating or drinking
- No chewing gum, tobacco or other products
- Refer to patient as “Mr.” or “Miss” with last name
- Shake hands upon introduction
- Maintain good eye contact
- Give instructions in layman’s terms
- No sarcasm, humorous or otherwise

Critical Safety Elements
All of the following safety elements apply to all students at all times; including when role playing the PTA and the patient. All safety elements will be discussed and instructed during the appropriate lecture and lab classes. Students are expected to incorporate all safety elements during clinical affiliations.
• Proper body mechanics
• Proper posture
• Wash hands prior to and after touching patient
• No clutter on the floor, such as electrical cords, backpacks, shoes, equipment, etc.
• No spills on the floor, such as liquids, food, lotions, powder, etc.
• Wearing proper foot wear; no sandals, flip flops or other unsecured shoes during lab or lab practical
• Proper and stable positioning of patient and self for the intervention
• Do not turn your back on your patient
• Do not turn your back on your sterile field
• Appropriate disposal of sterile field items
• Ensure patients are on stable surfaces, i.e. not on rolling stools
• Ensure correct temperatures of physical agents before using on a patient, i.e. hot packs, paraffin, whirlpool, etc.
• Ensure that your patient rises from and gets off treatment tables toward you
• Check skin before, during and after interventions, especially physical agents, to ensure no adverse effects
• Use gait belt during all transfer and gait training
• Use appropriate level of guarding during all transfer and gait training and therapeutic exercise
• Wheelchairs will be locked with foot rests out of the way for all transfers
• No body fluids such as sweat, sneezing, coughing, sputum, blood, urine, etc. shall come in contact with another person either directly, indirectly, or from your hands
• Proper safety instructions are given to the patient and reinforced
• All equipment will be positioned properly so that it does not create a fall or injury risk
• Appropriate handling and disposal of all sharps
• Any other situation deemed by the instructor to put a student at risk for fall or other injury

Failure to adhere to safe and professional practice
• Students are continually monitored by faculty for practice of the above safety skills and professional behavior.
• Students are continually reminded to incorporate safe practice and professional behavior in all lab skills by the faculty.
• If students are not following one or more of the safe practices and/or professional behaviors during lab sessions, it will be brought to their attention, re-instructed as necessary, by faculty.

• If a student fails to follow safe practices and/or professional behavior on a lab practical, they will fail the lab practical and need to retake it per instructions in the syllabi.

• If a student, at any time, shows blatant disregard for safety of a classmate, faculty, the patient and/or themself, the consequences will be determined on an individual basis. Possibilities include but are not limited to: failure of the lab practical, failure of the class or affiliation, removal from the program. This may also be reported to the Student Conduct Officer.

**Faculty Office Hours**

While all PTA faculty embrace an open door policy and encourage student interaction, some limitations are set in order to ensure meeting the needs of all students.

All full time faculty have posted office hours. All part time faculty by appointment.

Student Appointment: Time and duration to be determined at appointment scheduling. The appointment will be cancelled if the student is greater than five minutes late.

**Attendance, Absenteeism and Tardiness**

Attendance at all classes and lab sessions is mandatory.

Students are required to report to class/lab sessions on time, are expected to be ready for instruction on time and are expected to spend the required time in class. Arriving late and/or leaving early are unacceptable and unprofessional behaviors. It is disruptive to the learning environment for both the instructor and other students.

Students who are absent, tardy and/or leave early will have missed important educational information which may impede their learning and their ability to pass the class.

Students who will be late to/absent from class due to illness or emergency should call/email the appropriate instructor or administrative assistant prior to the start of class. If the student is going to be late, they must state an approximate arrival time.

At the discretion of the instructor, students who are late may not be allowed to enter class due to the disruption of the learning environment. This includes returning late from class breaks. Students are responsible for all missed information, skills demonstration/practice, etc.
**Classroom and Laboratory Etiquette**

1. Students are expected to show respect for all faculty, staff and classmates at all times.
2. Inappropriate behavior such as offensive/hostile/threatening language and/or offensive/hostile/threatening gestures will not be tolerated. The Unsatisfactory Progress form will be filled out for professional misconduct. Security may be called and the student may be removed from the class if the offense continues. This will also be reported to the CSN Student Conduct Officer. See CSN catalog and School of Health Sciences handbook.
3. Students are expected to be prepared for class. This includes reading the assigned material, handing in written assignments/projects on time, being prepared for class, tests and lab sessions and lab practicals.
4. Students are expected to be on time for class and to spend the required amount of time in class.
5. Cell phones, pagers, and other electronic equipment are to be silenced in order to avoid disruption of the learning environment. Students will not conduct electronic communication in the classroom.
6. Proper laboratory attire is required for all lab sessions. Students must be able to observe, palpate and move body parts with minimal interference from clothing. Acceptable attire: shorts, sleeveless tops, halter tops. Enclosed, flat shoes with non-skid soles (i.e. gym shoes) will be required at certain times. Bathing suits are required for the hydrotherapy portion of education. Male students will be required to remove their shirts during some lab sessions. Modesty/respect will be maintained at all times.
7. Behavior appropriate to the learning environment/situation is required at all times.

**Remediation**

There may be times when students find themselves falling behind in mastering the required material. In order to help the student catch up and be successful, a designated time and area of the lab will be provided to meet with instructors and/or classmates to discuss coursework and/or practice skills. Students may request remediation with the appropriate instructor by appointment. All remediation appointments will occur during open lab time on class days. The appointment will be cancelled if the student is greater than five minutes late.
Clinical Affiliations
In order to attend the assigned clinical affiliation, the student must have passed all preceding courses with a grade of 75% or higher.

Clinical affiliations are an integral part of the PTA student’s education. The clinical affiliations are designed to provide the student with opportunities to practice skills and competencies acquired during the didactic portion of education. These hands-on, direct patient care experiences will occur in a variety of physical therapy settings under the supervision of a physical therapist. These clinical affiliations are mandatory and must be completed during the scheduled time. Personal arrangements for such things as: work schedule, transportation, child care, appropriate dress, etc. are the sole responsibility of the student. Students are responsible for their own transportation to and from all clinical affiliation sites.

All affiliations will be scheduled in the greater Las Vegas area including, but not limited to: Las Vegas, North Las Vegas, Clark County, Henderson, Boulder City, Pahrump. Students may request out of area affiliations. The ACCE will make every effort to accommodate this request if an appropriate contracted site is available. All expenses incurred as a result of this out of area clinical affiliation assignment are the responsibility of the student, including but not limited to: transportation, lodging, meals, entertainment, etc.

The approximate timing of the clinical affiliations is as follows:
Clinical Affiliation I (PT 134) – Integrated physical therapy opportunities will occur throughout the first spring semester as arranged by the ACCE in community settings. These may occur on any days at any time. They are mandatory.

Clinical Affiliation II (PT 244) - Eight weeks, full time, (40 hours/week) during the last part of the Fall semester of the second academic year.

Clinical Affiliation III (PT 256) - Eight weeks, full time, (40 hours/week) during the last part of the Spring semester of the second academic year.

**Exact dates of each affiliation will be announced during the semester that each affiliation occurs.
**Each of these clinical affiliations is a credit course. The student MUST register and pay for each clinical affiliation prior to the start of the semester in which the affiliation occurs or they cannot attend the affiliation. Each student’s
file must be complete prior to the scheduling of clinical affiliations or they cannot attend the affiliation. If the student does not attend the clinical affiliation, this will result in a delay of the student’s PTA education or removal from the program.

**Student’s cannot participate in a clinical affiliation at their place of employment (current or previous) or where family members are employed.**

**Students are required to follow all policies, procedures and rules of each particular affiliation site. Students are not considered employees of the affiliation site.**

### Attendance Policy

Attendance and punctuality at the clinical affiliation site is mandatory. This is a sign of professionalism. Your clinical instructor will not tolerate you arriving late to the facility. Tardiness affects your patients, facility staff and the reputation of the facility and program. Tardiness may be cause for failure of the clinical affiliation.

Student’s exact hours and days of attendance at the clinical site are determined by each particular site and their particular clinical instructor (CI). Students may be required to attend their clinical affiliations on any days, evenings, weekends, holidays, etc. Students are not permitted to take time off from their clinical affiliation for any reason. If a student is ill or has an emergency that causes them to miss time from their affiliation, they must immediately notify their clinical instructor and the Academic Coordinator of Clinical Education (ACCE). Any missed time must be made up at an agreed upon date/time with the clinical instructor and ACCE. **There are no “personal days off” allowed.**

### Student Files

In order to participate in the PTA program and the clinical affiliations, students’ files must contain certain information as listed below. Files for PTA students are maintained in a locked cabinet in the ACCE’s office. Students cannot attend any/all of the clinical affiliations if their file is incomplete. It is required that students have the required information in their file by the end of their first semester in the PTA program.
Required file information:
Evidence of the following immunizations or immunity:
- MMR (Measles, Mumps, Rubella) 2 doses
- Varicella Zoster (chicken pox), 2 doses
- Tdap, within last ten years
- Annual flu (influenza) shot
- Hepatitis B, 3 doses (takes approx. 4-6 months to complete the 3-dose series)
- TB test, requires a two-step as the initial process, must be re-tested yearly prior to the expiration date. If the TB test is not repeated prior to the expiration date, a two-step TB test must be done again. (Chest x-ray and physician report are necessary if TB test is positive)
- Other immunizations as required by affiliating sites

Copy of the following documents:
- Current CPR card. The CPR certification must be approved/recognized by the American Heart Association. The certification course must contain a hands on demonstration of skills portion. The CPR card must be renewed prior to the expiration date on the card.
- Health insurance card. All students must maintain current major medical health insurance.
- Physical exam form signed by authorized medical practitioner with any physical limitations listed.
- Biographical data form.

The following signed forms:
- from the Student Policy Handbook for Health Sciences Programs
- Declaration of Student Responsibilities
- Confidentiality Statement
- Acknowledgment of Health Insurance
- Acknowledgment of Understanding of Health Sciences Handbook
- Authorization to Release Information
- Disclosure of Exposure to Potential Health Risks and Waiver of Liability
- Substance Abuse Policy Release
- Health History Questionnaire/Physical Examination Form
- Pregnancy Notification/Release Form (if applicable)
- Student Honor Code
from the Physical Therapist Assistant Program Handbook

- Arrest Information
- Informed Consent
- Photo/Video Release
- PTA Handbook Acknowledgment of Understanding

Per School of Health Sciences policy, students must also take and pass a drug test. CSN has a contract with Castle Branch. Students create their own account with Castle Branch, pay online for a drug test, and take documentation to Quest Laboratories. Students receive their results through their secure online account, print this information and submit it to their individual clinical affiliation site coordinator. In-depth discussion and instructions will be given to the students prior to attending clinical affiliations. 
The drug test must be completed and passed prior to attending any clinical affiliations.

Background checks are also required. This is done through an internet based company contracted by the college at a reduced student rate. Students will be given information/directions on how to complete this application prior to attending their first affiliation. The report is delivered to the appropriate affiliation site. The affiliation site will then either accept or reject the student based on its own criteria.

The background check must be completed and passed prior to attending any clinical affiliations.

If a student fails the drug test and/or background check, School of Health Sciences policy will be followed to determine the appropriate course of action. This policy can be found in the Health Sciences Student Handbook. This may result in removal from the program.

**PTA Program Schedule**
The following is a tentative overview of how the PTA program scheduling works for the two years you are in the program. *Days and times of classes and affiliations are subject to change.* Students will be notified of any changes as far in advance as possible.
Please note differences from the college calendar. These differences are necessary in order to incorporate the appropriate clinical affiliation time and to maintain the necessary in-class time. This schedule is part of the curriculum and cannot be changed to accommodate individual reasons.

Due to the deviation from the college calendar in the second year of the program, it will be very difficult to schedule and attend in-class general education classes. It is highly recommended that you complete all general education classes prior to the start of your second year so that your graduation is not delayed.

**Please note** - All PTA program lecture and lab courses, and Clinical Affiliation I, must be passed with a grade of 75% or higher in order to continue in the PTA program. Clinical Affiliation II (PT 244): Students are expected to achieve a final Clinical Performance Instrument (CPI) rating of greater than "Advanced Intermediate Performance" on items 1-6 and 14 and a rating of greater than "Intermediate Performance" on items 7-13. Clinical Affiliation III (PT 256): Students are expected to achieve a final Clinical Performance Instrument (CPI) rating of "Entry Level Performance" on items 1-14.

**First Year**

**Fall Semester** - Classes will be scheduled Monday through Thursday and follow the college semester dates.

- **Monday and Wednesday**
  - PT 105 Musculoskeletal Anatomy 12:00-1:20 pm
  - PT 110 Principles of Kinesiology 1:30-2:20 pm
  - PT 111 Problems in Kinesiology 2:30-5:20 pm

- **Tuesday and Thursday**
  - PT 117 Fundamental Principles for PTA 12:30-1:20 pm
  - PT 118 Fundamental Procedures for PTA 1:30-4:20 pm

**Spring Semester** - Classes will be scheduled Monday through Friday and will follow the college semester dates.

- **Monday and Wednesday**
  - PT 122 Psycho-social Considerations 9:00-10:20 am
  - PT 134 Clinical Affiliation I 10:30-11:20 and as scheduled
  - PT 120 Observation & Measurement 12:30-1:20pm
  - PT 121 Observation & Measurement Procedures 1:30-4:20 pm
Tuesday and Thursday
PT 125 Physical Agents  12:30-1:20 pm
PT 126 Physical Agents Procedures  1:30-4:20 pm

Friday
PT 130 Administration in PT  TBA

**Second Year**

**Fall Semester** - Begins in early August and ends in late October. Exact starting/ending dates TBA, approximately 3 weeks prior to the start of the college calendar semester.

PT 225 Principles for Musculoskeletal Pathologies

*For the first 3 weeks of class in August, this class will meet Monday through Friday, 12:30-1:50 pm.*

*With the start of the regular semester, class will meet Monday and Wednesday, 12:30-1:50.*

PT 226 Procedures for Musculoskeletal Pathologies

*For the first 3 weeks of class in August, this class will meet Monday through Friday, 2:00-4:50 pm.*

*With the start of the regular semester, class will meet Monday and Wednesday, 2:00-4:50.*

PT 238 Pathophysiology I

*This is a hybrid class that begins in early August and will meet Tuesday and Thursday on an as needed basis for testing and instructor meetings.*
PT 240 Orthotics & Prosthetics

This class will begin early August. It will meet Monday, 10:00-11:20 am.

PT 250 Principles of Cardio-Pulmonary Pathologies

This class will begin concurrent with the start of the college fall semester. It will meet Tuesday and Thursday, time TBD

PT 251 Procedures of Cardio-Pulmonary Pathologies

This class will begin concurrent with the start of the college fall semester. It will meet Tuesday and Thursday, time TBD

PT 244 Clinical Affiliation II

The eight weeks at the end of the fall semester, approximately from the end of October through December. Exact dates will be announced at the beginning of the semester. This is an eight week, full time, hands on experience in an assigned physical therapy facility. PTA program fall didactic classes will be completed prior to the start of this affiliation.

Spring Semester - Begins in early January. Exact starting date TBA, approximately 2-3 weeks before the start of the college calendar semester.

PT 248 Pathophysiology II

This is an online course. Tests scheduled at the testing center.
PT 254 Principles of Neuromuscular Pathologies

For the first 3 weeks of class in January, this class will meet Monday thru Friday evenings, Time TBA
After these 3 weeks, Days & Time TBA

PT 255 Procedures in Neuromuscular Pathologies

For the first 3 weeks of class in January, this class will meet Monday thru Friday evenings, Time TBA
After these 3 weeks, Days & Time TBA

PT 256 Clinical Affiliation III

The eight weeks at the end of the spring semester, approximately April through mid-May. There may be no spring break. Exact dates will be announced at the beginning of the semester. This is an eight week, full time, hands on experience in an assigned physical therapy facility. PTA program spring didactic classes will be completed prior to the start of this affiliation.
Generic Abilities

Generic abilities are attributes, characteristics or behaviors that are not explicitly part of the profession’s core of knowledge and technical skills but are nevertheless required for success in the profession. Ten generic abilities were identified through a study conducted at the University of Wisconsin-Madison. The ten generic abilities and definitions are:

1. **Commitment to Learning**: The ability to self-assess, self-correct, and self-direct; to identify needs and sources of learning; and to continually seek new knowledge and understanding.

2. **Interpersonal Skills**: The ability to interact effectively with patients, families, colleagues, other health care professionals, and the community and to deal effectively with cultural and ethnic diversity issues.

3. **Communication Skills**: The ability to communicate effectively (i.e., speaking, body language, reading, writing, listening) for varied audiences and purposes.

4. **Effective Use of Time and Resources**: The ability to obtain the maximum benefit from a minimum investment of time and resources.

5. **Use of Constructive Feedback**: The ability to identify sources of and seek out feedback and to effectively use and provide feedback for improving personal interaction.

6. **Problem-Solving**: The ability to recognize and define problems, analyze data, develop and implement solutions, and evaluate outcomes.

7. **Professionalism**: The ability to exhibit appropriate professional conduct and to represent the profession effectively.

8. **Responsibility**: The ability to fulfill commitments and to be accountable for actions and outcomes.

9. **Critical Thinking**: The ability to question logically; to identify, generate, and evaluate elements of logical argument; to recognize and differentiate facts, illusions, assumptions, and hidden assumptions; and to distinguish the relevant from the irrelevant.

10. **Stress Management**: The ability to identify sources of stress and to develop effective coping behaviors.

**APTA Guide for Conduct of the Physical Therapist Assistant**

The Guide for Conduct of the PTA is intended to serve physical therapist assistants in interpreting the Standards of Ethical Conduct for the PTA of the American Physical Therapy Association. The Guide provides a framework by which PTAs may determine the propriety of their conduct. It is also intended to guide the development of PTA students. The Standards and Guide apply to all PTAs. These guidelines are subject to change as the dynamics of the profession change and as new patterns of health care delivery are developed and accepted by the professional community and the public. This Guide is subject to monitoring and timely revision by the Ethics and Judicial Committee of the Association. See apta.org for full information.

**Interpreting Standards**

The interpretations expressed in this Guide reflect the opinions, decisions, and advice of the Ethics and Judicial Committee. These interpretations are intended to assist a PTA in applying general ethical standards to specific situations. They should not be considered inclusive of all situations that a PTA may encounter. See apta.org for full information.

**Standards of Ethical Conduct for the PTA**

**Standard 1**

Physical therapist assistants shall respect the inherent dignity, and rights, of all individuals.

**Standard 2**

Physical therapist assistants shall be trustworthy and compassionate in addressing the right and needs of patients/clients.

**Standard 3**

Physical therapist assistants shall make sound decisions in collaboration with the physical therapist and within the boundaries established by laws and regulations.

**Standard 4**

Physical therapist assistants shall demonstrate integrity in their relationships with patients/clients, families, colleagues, students, other health care providers, employers, payers, and the public.

**Standard 5**

Physical therapist assistants shall fulfill their legal and ethical obligations.

**Standard 6**

Physical therapist assistants shall enhance their competence through the lifelong acquisition and refinement of knowledge, skills, and abilities.
**Standard 7**
Physical therapist assistants shall support organizational behaviors and business practices that benefit patients/clients and society.

**Standard 8**
Physical therapist assistants shall participate in the efforts to meet the health needs of people locally, nationally, or globally.

The APTA House of Delegates in June of 2009 adopted the revised Standards, which became effective on July 1, 2010. See APTA web site (www.apta.org) for complete Guide.

**PTA Licensure**

To ensure the public health and safety of all patients, licensure is required for PTAs to practice physical therapy in the state of Nevada. The PTA must work under the supervision of a PT and must renew their license annually. The rules and regulations are available from the State of Nevada Board of Physical Therapy Examiners on their website www.ptboard.nv.gov. You must become familiar with the rules and regulations that you must practice under.

The State of Nevada Physical Therapy Examiners Board requires proof of good moral character to apply for licensure and to sit for the licensure examination. Please be aware that any of the following violations (not a complete list) may impact your ability to receive a license as a PTA in the state of Nevada:

- Non-compliance with court order to pay child support.
- Habitual use of alcohol and/or drugs.
- Arrested, charged, or convicted of a violation of a Federal Law, State Law, Municipal Ordinance other than a traffic violation.

Fingerprints are required and a background check will be completed. Any of the above violations may result in your inability to obtain a license as a PTA in the state of Nevada. For further information and complete details, please contact:
The State of Nevada Physical Therapy Examiners Board
7570 Norman Rockwell Lane
suite 230
Las Vegas, NV 89143

Success in the PTA Program

- **Open and honest** communication is critical. If you are having difficulties with any aspect of your course work or college issues, etc., please discuss these concerns with faculty as soon as possible so that we may help facilitate a solution with you.

- **Open and honest** communication is critical. If you are having difficulties in your personal life that are affecting your course work, please discuss these issues, to the extent you are comfortable, with faculty as soon as possible so that we understand the problems you are facing and may help facilitate solutions to the academic issues with you.

- **Plan** your time effectively and efficiently. Ensure that you have enough time to study, complete assignments, prepare for class, get to class, etc., and balance these with your personal life.

- **Psychological and emotional** support from your family and/or friends is essential. The PTA program is difficult, highly rigorous and demanding and time consuming.

- **Ask** questions. If you don’t understand what is being said or the material being covered, please ask for clarification.

- **Good** note taking skills are essential. ALS 101 College Success course is available to all students.

- **Good** study habits are essential. ALS 101 College Success course is available to all students.

- **Computer** literacy and access are essential and required. Many college, program, and course documents will only be available online. Many assignments will necessitate online completion. The CSN computer lab and the Nevada public libraries allow computer access free of charge if you do not have your own computer.

- **Making** flash cards about covered material is usually a good study tool.

- **Group** study and group skills practice are excellent tools for reinforcing and refining learned material.
• **Dedication and commitment** to achieving good grades and refining therapeutic skills are essential to success in the program, on the licensure exam and in your PTA career. It is of note that students who put forth the minimum effort necessary to pass classes typically have difficulty being successful on the licensure exam.

• **The counseling** office offers help for such things as: test anxiety, test taking tips, personal counseling, etc. Please take advantage of these free services if the need arises.

• **Faculty** are here to help.

**Privacy and Confidentiality Policy**

**Policy** - The privacy and confidentiality of students and patients are of the utmost importance and maintained at all times.

**Procedures**

**Students:**
- Drug tests go to and are maintained by the individual student.
- Background checks are only viewed by the student and potential affiliation site personnel.
- Grade books, exams and student files and any other identifiable documents are kept in locked drawers/cabinets in the appropriate faculty person’s office.
- Students must sign a release form in order for information to be released.
- Students sign a release form for the appropriate personal/medical information to be sent to their affiliations sites.
- Students have the option to sign a form denying release of directory information.
- Students have the option to sign the Photo/Video release form
- Student counseling/advising sessions with program faculty occur in the privacy of the faculty member’s office or other appropriate private rooms (i.e. conference room).
- Appropriate draping and modesty of students are maintained at all times when students are acting as simulated patients.

**Patients:**
- Students sign the “Acknowledgment of Understanding of Handbook” which includes the section “Responsibility of the Student” in the affiliation contract for maintaining patient confidentiality.
• Students sign “Confidentiality Statement” which further states the student will maintain patient confidentiality while participating in clinical affiliations.
• Students are instructed in HIPAA regulations by a certified HIPAA instructor in PT 122. Tests are maintained in their student file.
• Appropriate draping and modesty of patients are maintained at all times when students are in an affiliation setting.

Informed Consent Policy

Policy - Students will participate as subjects and/or simulated patients in laboratory and clinical experiences as part of the educational process. At times these sessions may be photographed or videotaped. Students must also submit to drug and background checks in order to participate in the PTA program and its clinical affiliations. Clinical facilities may require further drug and/or background checks.

Procedures:
At the time of enrollment in the PTA Program:
• Students will sign the following forms:
  “Substance Abuse Policy Release”
  “Arrest Information”
  “Informed Consent”
  “Photo/Video Release”
• Students will fill out a “Health History Questionnaire”
• Student will have a physical exam by a qualified medical practitioner where the questions “Does this individual require any special accommodations?” and “Any limitations to the student’s full participation in a health program?” must be answered. Any “yes” answers will be dealt with on an individual basis in accordance with CSN policy.
• Students will submit to a drug test and background check in accordance with The School of Health Sciences policy and procedure.
Recording Policy

Policy – Students are required to get permission from each individual instructor to record lectures, labs, meetings, etc. This includes voice and video recordings. Students are not allowed to put any recordings on any public website. These recordings are to be used for personal educational purposes only. The instructor may rescind this permission at any time.

Complaints Policy

Policy - Complaints and/or negative feedback (that are not covered by due process) regarding current PTA students, program graduates or the program itself may take various forms: graduate, employer or patient surveys; evaluations of students on clinical affiliations (written or verbal); written or verbal input from employers or the public. Such complaints or negative feedback will be addressed on an individual basis depending on the source and severity of the information.

Procedure - Issues may be addressed in a variety of ways, including but not limited to: verbal or written response, student learning contract, face to face meeting with all parties involved, discussion at advisory board meetings, curriculum review, etc. All correspondence/follow-up action will be documented and placed in the appropriate file. If necessary, issues will be discussed with the appropriate administrative personnel.

Safety Policy

Policy - Students will adhere to all safety and emergency guidelines as delineated by the PTA program, School of Health Sciences, Campus and College.

Procedures:
• Students will read and follow classroom and lab safety guidelines as outlined in the PTA Program Handbook.
• Students will read and follow safety guidelines for the lab and clinic as outlined in the Student Policy Handbook for Health Sciences Programs
• All equipment in PTA classrooms and labs will be monitored by faculty and students for safe working condition. Any equipment found to be broken, have faulty readings or output, or otherwise not in good working order will be taken out of use immediately and either fixed or replaced.
• All equipment will have preventative maintenance and/or calibration a minimum of once a year by a qualified bio-engineer with a written report.
Off Campus Educational Experiences Policy

**Policy** - In an off-campus educational experience or clinical affiliation, students will follow emergency and safety policies and procedures of that particular facility.

**Procedures:**
- Emergency and safety guidelines of the particular facility will be discussed by the appropriate personnel of the facility prior to or on the student’s first day of attendance. This is also stated in the Student Responsibility section of the Clinical Affiliation Agreement.
- Students are responsible for their own transportation to and from these off-campus educational experiences and clinical affiliations.

Safety Determination Prior to Clinical Assignments Policy

**Policy** - Students are allowed to attend a clinical affiliation only after it has been determined that their treatment and behavioral skills are competent, appropriate, ethical and safe for their level of education and the curriculum they have been taught.

**Procedures:**
- Student will have passed all preceding program lecture and lab courses with a grade of 75% or higher.
- Students will have passed all preceding lab practicals with a grade of 90% or higher. See each specific lab practical for critical elements, including safety.
- Clinical Affiliation I must be passed with a grade of 75% or higher. Clinical Affiliation II (PT 244): Students must achieve a final Clinical Performance Instrument (CPI) rating of greater than "Advanced Intermediate Performance" on items 1-6 and 14 and a rating of greater than "Intermediate Performance" on items 7-13. Clinical Affiliation III (PT 256): Students must achieve a final Clinical Performance Instrument (CPI) rating of "Entry Level Performance" on items 1-14.
- Students will read and adhere to “Professional Conduct Objectives” and understand the consequences of “Acts of Misconduct” as stated in the Student Policy Handbook for Health Sciences Programs.
- Students will read and adhere to the APTA Guide for Conduct of the Physical Therapist Assistant as stated in the PTA Handbook.
- Students will read and demonstrate the Generic Abilities as stated in the PTA Handbook.
- During clinical affiliations, students will wear name tags identifying them by name and status as a physical therapist assistant student.
- Students will verbally identify themselves as a physical therapist assistant student to all patients, facility staff and other involved persons.

**Clinical Agreements Policy**

**Policy** - Students are assigned only to clinical affiliation sites in which a properly executed and current written agreement (contract or MOU) is in place.

**Procedure** - A list of contracted clinical affiliation sites is maintained by the ACCE and the Dean of School of Health Sciences office. This list also contains other information about the site including the contract start and expiration dates. Original contracts with complete signatures are maintained in the Dean’s office. Copies (electronic or hard copies) of all contracts are also maintained in the ACCE’s office. The ACCE refers to this list of contracts and dates each time students are assigned to clinical affiliation sites to ensure students are assigned only to sites with a current, complete contract.

**Clinical Affiliation Grading Policy**

**Policy** – During clinical affiliations II and III, all students will be under the supervision of a clinical instructor who is a licensed physical therapist. Appropriate clinical education portions may be delegated to a physical therapist assistant. The physical therapist will fill out and sign the student clinical affiliation evaluation form (CPI). The PTA Program faculty are solely responsible for assigning the final course grade.

**Failure of Clinical Affiliation Policy**

**Policy** - In the event that a student is unsuccessful in completing a clinical affiliation due to academic and/or professional misconduct issues, the student will be terminated from the PTA program. The student has the right to the grade appeal process per CSN policy and the right to seek reinstatement into the PTA program per the School of Health Sciences policies.
Submission of Required Information to CAPTE Policy

Policy - The PTA Program director and appropriate institution administrator will ensure submission to CAPTE in a timely manner the following: Progress reports, CAPTE fees, Annual Accreditation reports, Self-Study Reports, reports of graduation rate, performance on state licensing exams, employment rates and other documentation as required/requested. Submissions may include information about the demographics and performance of past and current PTA students.
ARREST INFORMATION

Licensure as a Physical Therapist Assistant: Most states require Physical Therapist Assistants to be licensed. To become licensed in the State of Nevada, you must have graduated from high school (or equivalent), graduated from a board approved, accredited program in physical therapist assistant education and passed the national licensing examination.

In addition to successfully completing a prescribed course of study and passing the national licensing exam, the Nevada Physical Therapy Practice Act (NRS 640.080) requires that the candidates to be licensed must be “of good moral character”. PTA students are advised that if they have been “arrested, charged or convicted of a violation of a Federal Law, State Law, or Municipal Ordinance other than a traffic violation”, they may be precluded from licensure to practice as a Physical Therapist Assistant in Nevada. If the PTA student falls into the above category, it is suggested that the student contact the Nevada State Board of Physical Therapy Examiners for additional information prior to proceeding in the PTA Program.

I have read and understand the above information.

INFORMED CONSENT

Student to Act as Simulated Patient

I understand that as part of the academic and clinical education to become a PTA (physical therapist assistant) I am required to participate in various lecture and lab classes as a simulated patient. Instructors and other students will have opportunities to demonstrate and practice on me those skills learned in various classes. These skills include, but are not limited to, a variety of: mobility activities, palpation techniques, therapeutic exercises, testing and measurements, and physical agents.

I understand that there is some risk of injury resulting from my participation in these skills training classes. I further understand that the college cannot ensure that other students will properly apply skills learned in class nor can the college be held responsible for any pre-existing conditions or injuries that I may have which make me susceptible to injury.

If I have any pre-existing conditions or injuries that may make me susceptible to injury from skills training, I will report such conditions or injuries to my instructor, and, if appropriate, to the Disability Resource Center.

In the unlikely event that I become injured it must immediately be reported to the instructor of the class and the appropriate college incident report must be filled out. If necessary, appropriate medical intervention and payment for those services are solely my responsibility.

All PTA students are required to provide their own comprehensive medical insurance coverage.

I have read and understand the above information.

PHOTO/VIDEO RELEASE

I understand that in the course of my education in the Physical Therapist Assistant Program, there may be occasion for my photograph/video to be taken.

I consent to my photograph/video being taken for the purposes of knowledge and education; or in the event the college requests photos for the student catalog, schedule or publicity.

I further understand that I will not be identified by name in these photos/videos.

I have the right to rescind this release in writing at any time.

Circle one:  I consent  I do not consent

PTA Handbook - Acknowledgment of Understanding

I have read the PTA Program Handbook and acknowledge that I will be held responsible for all information included therein. I have had the opportunity to request clarification when necessary and I understand and agree to abide by the responsibilities and expectations required of me as a student of the PTA Program.
