Job Description
The Registered Health Information Technician (RHIT) performs a variety of health information functions including:

- Working with electronic health records (EHRs)
- Organizing, analyzing, and technically evaluating health information
- Compiling various administrative and health statistics
- Controlling the use and release of health information
- Coding disease operations, procedures and other therapies
- Enforcing HIPAA

Career Opportunities
The career opportunities are endless. Depending on your level of skill and education you may pursue a middle level management or department director position. Potential employment locations may be any one of the following:

- Acute Care Hospital
- Long Term Care
- Ambulatory/Outpatient Care
- Government Agency
- Insurance Company
- Law Firm
- Physician’s Office
- Consulting Firm
- Software Company

Program Description
The Health Information Technology Program (HIT) is designed for the working student. The majority of students continue to work full time jobs. The standard rule for study time is approximately 2 hours for every 1 credit hour. The program courses are generally offered online, in the late afternoon and evening with some weekends.

The Health Information Technology Program may transfer into a related Health Care Administrative or Baccalaureate Health Information Management Program depending on the receiving university.

Admission Requirements
The CSN Health Information Technology degree is a Limited Entry Program. Therefore, all prerequisite requirements must be completed by the completion deadline in order to be eligible for consideration. See reverse side for specific requirements.

The information provided in this literature is for advisement purposes only.

College of Southern Nevada, Health Programs Advisement Office, 6735 West Charleston Blvd., Las Vegas NV 89146, Phone: (702) 651-5690 HIT-CG - 4/17
