Practice Exercise P

NOTE: This exercise will be graded after its due date.

Question 1 - 50 points

- In CourseCompass click on the "Communications" tab, next click on "Discussion Board", and finally click on "Practice P - Question 1."
- Compose and post a message entitled HELLO - YOUR FIRST NAME AND LAST NAME in which you introduce yourself to the rest of the class.

Question 2 - 50 points

1. In CourseCompass click on the "Communications" tab, next click on "Messages" and finally click on "Inbox".

2. Compose and post a message to the instructor entitled HELLO - YOUR FIRST NAME AND LAST NAME containing the following information:

   a. The expression \( x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a} \) using the Equation Editor built into the "Compose Message" window.
   b. A listing of all of the mathematics courses you have taken in college.
   c. The DATES and TIME of all the tests given in this course.
   d. If you are from out-of-town, give me your test proctor information. See Syllabus.
   e. The name you want to be called during the semester.
